 NPS Roses Rider 031ET

Key Ridge Explorer
DSF Queen 15R
 MTS Red Queen 93

Bred in Dale Studer's "real world" program in Iowa, DSF Queen 15R is a functional and feminine donor created from proven, outcross Shorthorn genetics, an attribute that is highly sought in today's breed. Wingman is the full brother to Aviator - whose semen is in extremely limited supply! Aviator is, without a doubt, currently, the dominant sire of competitive and highly productive females in the Shorthorn breed. This embryo package is an opportunity to get in on the front end of the Wingman "trend," and produce a herd sire or female from this truly unique mating and name it with your own prefix. Embryos are stored at GGS Genetics, Dewitt, Michigan.
