BASIN PAYWEIGHT 1682 Sire: Deer Valley Growth Fund Deer Valley Rita 36113

TOEBBEN TRAVELER 066H **Dam: La traveling lenore 218 La HD Lady Lenore 416

Lenore is an attractive Growth Fund daughter that will have good mature size. Her family longevity is excellent in terms of feet, udder, and production. Her maternal granddam, LA Right Lenore 3303, left the herd at 19 years of age. Actual birth weight: 82 lbs.

This young female should catch your eye with a sire like Werner Flat Top 4136. Not much of an explanation is needed! The Flat Top bull has been known for his exceptional growth and phenotype that he passes on to his offspring and this heifer is no exception. Her length of body is impressive, the kind that will make a real good momma cow. Correct structure and increase phenotype without sacrificing growth!

Sandy J133 is a well-bred, top cow prospect stemming from the famous Cabin Creek Sandy 804 cow line that has produced numerous show winners at the national level. Sandy J133 was a successful show heifer herself earning championship banners both times she was shown. This is your opportunity to tie into a proven pedigree and bred to the popular calving ease sire Conley South Point for a quick return on investment. Confirmed safe in calf due April 14th to Conley South Point

Al Bred to Conely South Point Reg: 19248022 | Angus Al Date: 7/5/2022

Pearl is a gem from the great sire Model and her powerful mother who was sired by Insight back to one of our best First Class Daughters. Big Footed, Long Bodied, and super sound describe her along with that combination of a long slender, feminine front back to a giant hip. Rarely would I call one a future donor but I beleive she needs to be! Pasture bred on 9-27-22 and confirmed pregnant!

Here is a bull that is big topped, big hipped and just loaded with muscle and depth of body all in a sound structured package. He is a bull that has a loaded pedigree of top genetics that you cannot go wrong with, from the great I80 bull on the Maine side to the great WYR Impulse on the Chi side. His pedigree goes deep from sire to grand sire to great grand sire and the same on the dam side. His genetic make-up speaks for itself if you just study it down deep. I would not be afraid to use him on heifers, he had an 86 lb. birth weight and 11-month weight of 1150lbs. Stop by and see this bull in person I believe you will like him better in person then in the picture!

his birth, his energetic yet docile attitude has made working with him so much fun. With his freat baldy color, length, overall size and power he has produced some wonderful flashy calves that are sized for calving ease. Even after being put out for 2 breeding seasons he is still able to be caught and walked into the barn or a show on a halter. As sad as we are to see him go, we are excited for him to be able to continue to pass along his solid line of genetics along with binging such a great attitude to your herd. He is THF and is PHAC

Ace was born on the ranch and has been a loved part of our herd his whole life. Since

CMTL Lizzo 3K has a pedigree that is As Good As It Get's. A natural calf out of our young donor ACMD LULU 945G that was Champion Chi and 4th Overall at the 2019 MI Winter Classic. Her grand dam is the legendary LUCY donor at AcMoody's that was Supreme Overall at Kansas City. Lizzo is duel registered Chi and Mainetainer. Mating options for this female are endless she is stout, attractive, big ribbed and super hairy. A bonus is she is kid friendly. Retaining the right to one flush at consignors cost and buyers' convenience.

Big Time Herd Bull! This dude is legit. Out of a proven retired show heifer and this is her second natural! Her 1st calf was a Powersurge heifer that we sold in the Boyd September sale that brought nearly 10k and we feel this guy could follow in her footsteps. Big big feet, soft in his joints and flexible on any terrain. This stud's power and mass is undeniable and yet he offers a smooth look when standing parked. Good built one with a proven dam and royally bred sire on the top side, guys can't go wrong with this one here. Give Scott: (616) 446-2146 or Drew: (616) 368-0818 a call for more information.

GOLDEN OAK OUTCROSS 18 U Dam: Grand Starcrossed 38z et CSF 435 Lady 9200

A super attractive powerfully constructed February out of one of our favorite donors 38Z. This cool fronted, long bodied, chromed up heifer is sired by the former national champion C Double Your Miles 6077. Pictures and videos will be posted in March on Facebook and grandmeadowsfarm.com

If you are in the market for a true cow prospect, study this red necked bred heifer closely. She is a sleek fronted, smooth shouldered and long sided female that has incredible structure. She is backed by a dam that has produced well for us in the past including the high selling female in Corey Jesswein Cattle's 2019 online sale. STE MISS VIXIE J01 was AI'd to SCG Showtime No Limit 111ET on December 28, 2022 and has been vet checked safe to the AI date, due to calve on October 6, 2023.

We sold Yasmine as a heifer calf to at the time Delhawk/Happ where she topped the MSU in 2011 at \$15,000. She went on to produce many national winners and top sellers for Tom. We donated a yasmine daughter for the HYFA sale lot in Denver where she commanded \$80,000. Her progeny continues to be generators in herds across the country. She produces power with look and has been a foundation female for MF. Don't wait, this will be some of the last chances to get a hold of genetics like this. A great genetic opportunity here, get it while it lasts. We are selling 1 package of 4 for each lot and is currently stored at GGS. Guarantee 1 60-day pregnancy.

W/C LOADED UP 1119Y Sire: Geff County 0 Ruby NFF Rhythm 475B

MR CCF VISION Dam: T-T Blackbird D2 FBF1 Blackbird

Kiwi is the fourth heifer out of 4 calves from her dam T-T Blackbird D2. This County O heifer is the first we have offered for sale out of D2. Her dam was purchased in Louisville at the NAILE Select Simmental Sale in 2017 as a bred heifer and has been a great producer for us. Two of 217K's maternal sisters have been MI Show points HI Point Simmental Heifers for the year in 2018 & 2019. Kiwi has a long extended feminine front end, square hipped, big bodied and easy moving.

HOOK'S BLACK HAWK 50B Sire: Hook's Eagle 6E Hook's Yvette 100y

MR.NCL UPGRADE U8676

Dam: PSF Y9

TNC SWEET DREAM

PSF Y9 served as a cornerstone of Brian Plank's herd before joining our donor pen this spring. Still going strong at 12 years old, she has a proven track record of producing both sons and daughters with her trademark eye appeal, power, performance, and functionality. Mating her to the highly proven and well-respected Hook's Eagle is about as foolproof as it gets. Grade 1 Conventional Embryos.

LCCC AMELIA ROSE 1607 ET

NBS Amelia – we hope you can see the quality that ties all of our consignments together. Look deep and realize that consistent quality is a result of everything Daphne. Both of our purebred lots trace back to Daphne on the dams side, while both of our Plus offerings trace back to her on the sire side. The NBS Frazier daughters are developing into cows with a lot of positive attributes. Moderate, easy keeping with beautiful udders. Amelia has a solid red bull calf born 1-6-23 sired by Sull Knightly Force. He came unassisted at 63#, so if you are needing a calving ease bull in the future, make NOW your future.

This heifer is arguably the best calf we have raised. If square hipped, hairy, and correct at the ground is your type of cattle, look here! Our first year with a set of fall borns and expectations were high with this mating from our 18 Donor. Cherry Red runs on her bottom side, and with that brockle marked face, she will turn heads and will produce flashy progeny.

STE MISS MAY WE ALL K01 is one that you can really get excited about when you study her genuine build. She offers a very attractive look from the side and doesn't disappoint when you analyze her from behind as she carries a big square hip on plenty of foot and bone. When asked to move her athletic ability is extraordinary. She has a strong resemblance to her dam who we purchased from the Laudeman family in their annual fall sale where she was their high selling female in 2020. If this young July heifer continues developing as her mother has done for us you won't want to miss out on her!

CC SUNNY BETTY 41

Buckmaster Bubba J W101, a high growth son of H2R Profit Builder B403; ranks in the top 10% EPDS in WW, YW, ADG, and HPG and is in the top 16% in Marbling and Gridmaster. His docile nature, calving ease abilities, and amazing growth potential, posting a 3.77 lb/day gain since weaning, would make him an excellent addition to any herd!

Kody is a calving ease bull with curve bending genetics in the making. Currently, we are using an Aviator sired bull in the commercial herd and the calves are easy calving, high growth, and docile! Kody will carry on that same traditon in his calves. Kody also has some perfect phenotypical lines and can be used in multiple ways from a club calf operation to carcass production. Docility is also a key ingredient in this fellow.

In our nearly 30 year history of consigning bulls to the Michigan Beef Expo, we believe 3G Kankakee 235k is our best entry to date. Lots could be said about his power and performance and phenotype but his best attribute might be found in the maternal strength of the bottom side of his pedigree. His dam is a beautiful uddered 10 year old that has been a five time dam of Merit and currently is a Dam of Distinction with an incredible progeny weaning weight ratio of 8 @ 107. Kankakee's full sib was named the 2019 Reserve national Champion Balancer Bull while that same year Kankakee's other full sister was the dam of the 2019 National Reserve Champion Gelbvieh Bull. 3G Jack of Hearts 186J is a winning hand for any true cattlemen's bull battery. Red, polled, incredible growth, big hipped, a gentlemen's disposition and as long age fall yearling, he is ready to go to work. We promise he is worth the trip to the Expo as a must see in person.

SAV FINAL ANSWER

Dam: CF ELLIE

CF CATALINA

Kellie, a momma cow in the making, she will be hard to part with. A high performance heifer with perfect confirmation and cat like movements. Her mother did a fantastic job of raising her first time calf and bred back within a 45 day window; All while maintaining a BCS of 6 plus. Easy keeping genetics
